

Oyster IMS x Intapp

Discover why Oyster IMS is the leading partner for the Intapp Collaboration Suite in the UK and Europe.

Overview

Oyster IMS has enjoyed a longstanding partnership with the Intapp Collaboration suite since 2017, initially collaborating with Repstor, the creators of the original products that have evolved into Intapp Documents and Intapp Workspaces.

With offices in London and Dublin, Oyster IMS offers expertise in planning and delivering Intapp solutions throughout Europe. For your Intapp Collaboration Suite needs, Oyster IMS stands ready as your premier choice.

For more information on Oyster IMS and our impressive portfolio of clients and past projects, please refer to the details provided overleaf:

Josef Elliott, Managing Director of Oyster IMS, commented on the partnership:

"I'm delighted to be working closely with Intapp, who occupy a unique position in the document management market as the leading solution vendor for those firms and in-house legal functions who wish to use MS SharePoint as a document repository. We have great experience in the product set and have been commissioned to carry out the design and implementation of complex integrated solutions as well as software licence sales.

Oyster's consultants bring valuable experience of working at all levels within our client organisations, covering private practice law firms as well as in-house legal in private sector organisations, government and the third sector."

At a glance

- ✦ Offices in London and Dublin
- ✦ Project delivery across Europe
- ✦ Certified Intapp consultants
- ✦ Corporate legal and private practice law firms
- ✦ Over 20 years of information management experience

Oyster IMS was founded in 2003 specifically to assist organisations with the increasing volume, variety and velocity of information coming under their management. Since then, business has grown to provide consulting, technology and managed service solutions to organisations small and large across the UK, Ireland, Europe and the Middle East.

From offices in London and Dublin, we help clients to create, capture, store, manage, share and preserve their information and data in a secure, compliant and cost-effective fashion. We deliver expert advice, working with best-of-breed software to offer on-going services to public, private and third sector organisations, from one-off point solutions to solve a particular problem, to full multi-year end-to-end managed services.
